Email:devadi1078@gmail.com
Contact: 7087130304

SKILLS

Language: C++, Java, Python
Tools/Platforms: Git, GitHub, jupyter Notebook, Google Colab, Jenkins, Docker
Frameworks: Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Soft Skills: Problem Solving, Team Collaboration, Project Management, Adaptability

TRAINING/EXPERIENCE

CSE Pathshala Jun'25–Jul'25
Contact Management System | Python, OOPS

- Developed a console-based contact management application using Python classes and OOPS concept.
- Implemented CRUD operations (Create, Read, Update, Delete) with efficient duplicate phone number detection using a hash-set.
- Designed modular functions for adding, searching, updating, and deleting contacts with user-friendly menu.

PROJECTS

Titanic Survival Prediction | *Pandas, scikit-learn, ML* Mar'26

- Developed an end-to-end machine learning pipeline for Titanic survival prediction using Random Forest, achieving 83.24% accuracy and 0.89 ROC-AUC, indicating strong classification performance.
- Performed data pre-processing and feature engineering, significantly improving model effectiveness and interpretability.

House Price Prediction| Pandas, NumPy, scikit-learn, ML Jan'26

- Developed an end-to-end house price prediction model using Light-GBM , XG-Boost , and Ridge Regression within a scikit-learn Pipeline, achieving *RMSE = 0.1160 and R^2 = 0.9008*.
- Designed and tuned an ensemble stacking framework, leading to **70% better performance** compared to other models on the Kaggle leader-board.

CERTIFICATE

Data Structures and Algorithm using Python | CSE Pathshala Jun'25
Computer Communications | Coursera Aug'24

EDUCATION

Lovely Professional University Phagwara, Punjab
Bachelor of Technology-CSE AI and ML : ***CGPA:7.84*** Aug'23-Present
Holy Point Academy Etawah , UP
Intermediate; ***Percentage: 87%*** May'21–Mar'22
